

DO YOU HAVE UPPER LIMB LOSS OR LIMB DIFFERENCE?

We are looking for people who have unilateral transradial or transhumeral upper limb loss or limb difference, who currently use a body powered, myoelectric or hybrid prosthetic device. We need you to participate in a study on prosthesis use and function!

If you are invited to participate, you will be asked to come to the nearest participating VA or Department of Defense site to complete a survey and participate in various functional assessments measuring your ability to complete different activities.

Please contact **John Davey** at **401-273-7100 x16535** for more information. If you have questions about your rights as a study participant, or you want to make sure this is a valid study, you may contact the VA Central Institutional Review Board at **877-254-3130**.
